

Asahi India Glass Ltd.

AIS to participate in the Annual conference 'The GRIHA Summit 2015'

New Delhi, 11th March, 2015:Asahi India Glass Limited (AIS), India's leading integrated glass company, to participate in the 6th annual conference 'The GRIHA Summit 2015' to be held on March 12-14, 2015. The conference is expected to be attended by over 600 professionals from the building and construction industry.

The Summit would serve as a platform for knowledge sharing in different domains of green building industry. It shall facilitate multi-stakeholder partnerships and networking among governments, academia, civil society organizations and professionals from different disciplines like architecture, engineering and construction management.

The GRIHA Summit 2015 is completely focused on what going green can do for you and your organization. "As India's leading integrated glass company, AIS has been at the forefront of moving towards an ecofriendly future. It has pioneered innovations in glass processing technology to develop both single-glazed and double-glazed products with the best 'green' parameters. This is giving developers and their architects' greater choice and the ability to explore possibilities. These solutions enhance the aesthetics, efficiency and economics of commercial and residential spaces, compared to traditional building materials," said Vikram Khanna, COO- Architectural Institutional Business & Consumer Glass, CMO, CIO, Asahi India Glass Limited.

The conference theme would be 'High Performance Habitat' and the sessions would be designed around enhanced efficiency of built environment both at city and building scale. AIS will also be a part of the plenary session.

About Asahi India Glass Limited (AIS):

Asahi India Glass Ltd. (AIS) is India's leading integrated glass solutions company and a dominant player both in the car and building glass segment. It commands over 70% share in the Indian passenger car glass market. Established in 1986, AIS' footprint today spans the entire spectrum of the automotive and architectural glass value chains. It is a sand-to-solutions organization with products & services for institutional buyers as well as retail customers.

About Ecosense by AIS:

Ecosense from AIS is a high performance glass portfolio, available in a unique range of 33 nature-inspired shades under the three categories – Enhance (Solar Control range), Exceed (Solar Control Low-E range), and Essence (Low-E range). It helps developers and their architects by:

- Allowing optimum light to pass through a window or façade while radiating, absorbing and reflecting away a large part of near range infra-red heat
- Keeping indoor spaces brighter and cooler
